FAIR DATES: The 2014 State Fair of Texas (the Fair) will be held at Fair Park, Dallas, September 26 to October 19, unless postponed, shortened or extended by the Board of Directors, which they reserve the right to do if they deem it necessary for the general welfare of all concerned.

HOMELAND SECURITY/EMERGENCY EVACUATION OF LIVESTOCK/PROPERTY STATEMENT: During such time as deemed necessary by local, state or federal authorities, the State Fair of Texas, and/or its officials may, temporarily or permanently evacuate Fair Park under the authority of the Homeland Security Act. Incidents such as, but not limited to, extreme weather conditions, bomb threats, acts of war, declarations of war, code red of the Homeland Security System, etc., will be acted upon in accordance and cooperation with local, state and federal authorities. Priority evacuation will be given to human life, then livestock and/or property. In such cases, exhibitors will turn over the care of their livestock or property to State Fair, or as directed by governmental authorities. Proper animal husbandry practices will be followed within reasonable expectations. At such time the evacuation notice is lifted, exhibitors will be allowed to re-enter Fair Park and claim their livestock or property.

INTERPRETATION OF RULES: State Fair reserves to its Executive Committee the final and absolute right to interpret these General Rules and Regulations, the Youth Livestock Show Special Rules, and/or any applicable special requirements as published in this premium list (collectively, the "Rules") and to reasonably settle and determine all matters, questions and differences in regard thereto, or otherwise arising out of or connected with or incident to the Fair, and the right to amend or add to these rules as its judgment may determine. An exhibitor who violates any of the following rules may forfeit all privileges, fees paid and premiums and be subject to such penalty as the Executive Committee may order.

The failure of the State Fair to enforce any of the provisions, rules, rights or remedies of this premium list or to exercise any options or sanctions herein provided will in no way be construed to be a waiver of such provisions, rules, rights, remedies, sanctions or options.

Special rules or conditions are published in each department where necessary. If there is a conflict between the special rules or requirements of any department or division and the general rules and regulations, the special rules or requirements shall apply.

LIABILITY STATEMENT: All exhibitors and exhibits shall comply with the Rules of State Fair. State Fair shall not be liable to exhibitor for lost profit or other financial loss to exhibitor of any type or description including any special, indirect, reliance, incidental or consequential damages which may be caused directly or indirectly by the enforcement of such Rules, or for any time delays, inadequacies of services of State Fair or any use of the premises or by any deficiency or defect therein. Additionally, State Fair is not responsible for any loss, injury or damage caused by exhibitor or exhibitor's animal(s) that may arise directly or indirectly from exhibitor's participation at the Fair. The management reserves the right to return entries and cancel any class in which, in its judgment, the numbers of entries are insufficient to insure adequate competition. Where there are fewer entries in a class than the number of premiums offered, the judge(s) may, at their discretion, award a prize or prizes of such grade as the animal merits.
- e. **TIME OF JUDGING:** The Livestock Events Schedule, as published in this premium list, will be followed as closely as possible. Exhibitors should ascertain at what time the exhibits entered will be judged. Judging will not be delayed for exhibitors entering the show ring late. Any exhibit not presented promptly at the scheduled time will be ruled out and excluded from competition when the class is called.
- f. **JUDGING CONTESTS:** When an exhibitor is called upon to furnish one or more animals for any judging contest(s), he or she will cooperate with State Fair Management. COMPETITION EXHIBITS

- 17. ANIMAL/EXHIBITOR DISQUALIFICATION:** In order to foster fair competition, provide a level playing field and protect the safety of the food chain, the showing of unethically fitted livestock, livestock of any ineligible age for exhibition in the class entered, and/or animals being administered unapproved drugs is strictly prohibited. Additionally, any animal that has been administered a drug, even though that drug is FDA approved for its species, is subject to disqualification if that animal tests positive for that drug once it has arrived at State Fair and/or participated in State Fair shows. All animals must remain free and clear of all drug and chemical residues while on State Fair grounds.
- a. UNETHICAL FITTING:** Unethical fitting means any attempt to alter the natural appearance, conformation, musculature or weight of an animal by any unnatural means. Animals showing any signs of being unethically fitted will be disqualified. Examples of unethical fitting include, but are not limited to the following:
- Application of any substance to any part of the animal's body, unless specifically allowed in the department rules of that entry
 - Use of injection
 - Draining of fluids

 - Feeding of material not conducive to the health of the animal, safety of food or marketability of its carcass
 - Surgical alterations
 - Artificially filling animals by stomach pumping or airing injections
- b. OVER AGE ANIMALS:** Over age animals will be disqualified.
- c. UNAPPROVED DRUG USE:** The showing of an animal that during its life has been administered any quantity of any unapproved drug, chemical or medication is strictly prohibited. Unapproved means not approved by the FDA and/or the USDA for slaughter animals including animals that may be destined for human consumption.
- d. APPROVED DRUG USE:** If an animal has been administered a drug that is FDA approved for its species, sufficient time must have passed so that the animal does not test positive for that drug upon arrival at the Fairgrounds. Animals must remain free and clear of all drug and chemical residues while on the Fairgrounds and/or participating in State Fair shows. Please note that elimination time (the time it takes for no drug residue to be found in the system) is generally longer than the labeled withdrawal time for most approved drugs.
- e. ANIMAL INSPECTION:** As condition for participation in the State Fair shows, exhibitor agrees to submit any animal entered by the exhibitor for inspection by any veterinarian appointed by State Fair Management. Exhibitor also agrees to have such animal submitted to any tests requested by State Fair. Exhibitor also agrees that the opinion reached by State Fair or its officials as to whether such animal is unethically fitted or over age shall be final and binding without recourse against State Fair, its officials or any of its appointed veterinarians. Further, State Fair specifically reserves the right to have ultrasound, D.N.A., tissue, blood or urine laboratory analysis made on any animal entered for State Fair competition. The conclusions reached by the veterinarian or laboratory shall be final and binding without recourse against State Fair, its officials or any of its appointed veterinarians. An exhibitor of an animal that is found to be unethically fitted, over age, and/or testing positive for any drug or medication or unapproved chemical may forfeit all titles, awards, auction proceeds, premiums, scholarships, as well as rights and privileges to exhibit livestock in the future at the Fair. Exhibitor waives any cause of action which he/she

 - g. **NON-ADHERENCE TO THE RULES:** Any person found guilty of misrepresentation or not abiding by the Rules in this premium list will be disqualified and denied the privilege of showing at the Fair.
 - h. **EMERGENCY TREATMENT:** If an animal requires emergency treatment while on State Fairgrounds, only a licensed veterinarian will be allowed to administer any drug, chemical or feed additive. An exhibitor may choose a licensed veterinarian other than the Official State Fair Veterinarian, but the Official State Fair Veterinarian MUST be notified in advance and he/she MUST be present. Animals which are administered treatments with a withdrawal or extended elimination time period will be disqualified from competition. Furthermore, the Official State Fair Veterinarian, in agreement with State Fair Management, reserves the right to treat any animal if, in the opinion of the Official State Fair Veterinarian; it is in the best interest of the animal's health and well-being to be treated. If the Official State Fair Veterinarian administers treatment to an animal, and therefore uses any medication that does not meet the appropriate withdrawal and/or elimination time, such animal will be determined ineligible for competition.
 - i. **TREATMENT COSTS:** All treatment costs are the responsibility of the exhibitor.
 - j. **DISQUALIFICATION/CONDEMNATION OF ANIMAL:** State Fair practices a "zero tolerance" policy on all residue violations. State Fair reserves the right to condemn and/or disqualify any animal, either live or slaughtered, found in violation of the Rules, and the exhibitor will forfeit all auction sale and/or premium money if the animal is disqualified. If an animal(s) is disqualified, the class placing will not change. A disqualified exhibitor may forfeit all rights and privileges to exhibit livestock in the future at the Fair, as well as any and all State Fair scholarship opportunities. Disqualifications due to violations of State Fair Rules as stated in this premium list or the Entry Certification, Release and Indemnity agreement and any consequences will be decided by State Fair Management. These decisions may be appealed to State Fair's Executive Committee from whose decision there can be no further appeal.

ABBA SPECIAL RULES

1. Animals must be registered in the American Brahman Breeders Association to be eligible to compete in association sponsored shows. The registration certificate (or photocopy) for each entry must be available for presentation to the superintendent or manager of the show at the time entries are verified prior to judging.
2. The registration number and animal identification number (number branded on animal) of (1) each animal must be entered in an individual class, (2) the sire of each get-of-sire entry and (3) the dam of each produce-of-dam entry must be listed on the entry card of each animal entered.
3. Entries that have not complied with rules one (1) and two (2) will not be eligible to show, receive premium monies or earn points in the association's Register of Renown.
4. Animals to be eligible to be shown in group classes must be entered and shown in individual classes.
5. Entries will be listed numerically according to age (oldest first) in catalogs and judging schedules. Include animal identification number (number brand) as a part of identification. When entering the arena for judging, the handlers will line cattle up numerically in the same order.
6. Judges will be allowed to comment on placings in selected classes when conditions permit.
7. Each animal will be presented in the show ring in its natural conformation and structure without alteration or modification. Alteration or modification shall be defined to include any surgical or circulatory constriction including banding or other appearance change, save only branding, tattooing, foot trimming or dehorning. Injections of foreign substances for cosmetic purposes shall be prohibited. If to the satisfaction of the ABBA's staff, Officers, Executive Committee or Board of Directors; any animal has had its natural conformation and structure altered or been administered steroids, growth hormones or stimulants; then said animal shall be ruled ineligible to compete until such time the show committee and owner/owners have reviewed the case. Any violators, both owner and fitter will be ineligible to exhibit cattle at ABBA approved shows for 5 years.
8. In cases where families, companies, corporations, etc., are operated as a unit under the same management but have cattle also registered in the name of individual partners, said cattle, even though bearing a different ownership brand, are eligible to be shown in competition under the firm name provided they have not been and will not be shown in the name of the individuals.
9. For females being shown in the three oldest classes ****CURRENT YEAR LESS 3 YEARS**** (females calved Sept. 1 - August 31, 2010 for Fall Shows), exhibitor must have a certificate of pregnancy issued by a licensed veterinarian and will be presented to show officials at time of check-in or registration paper check. The show reserves the right to perform pregnancy determination by palpation for females in the above classes at any given ABBA approved show if an official protest has been filed. For Fall Shows only the last class of females is required to have a calf at side. The only exemption from this rule will be cows that have already weaned a calf and a registration certificate of the calf **MUST** be presented to the judge.
10. **All bulls will be shown with a nose ring or nose restraint with lead attached.** For bulls showing in the oldest class, the exhibitor must have a certificate issued by a licensed veterinarian stating the bull has produced viable semen. This certificate must be available for inspection by the judge on request.
11. This deals with the produce of dam classes and the get-of-sire class:

Embryo Produce of Dam - Two animals from the above classes produced by one dam by embryo transfer either or both sexes may be represented. No ownership requirement.

Natural Produce of Dam - Two natural born animals produced by one dam from the above classes, either or both sexes may be represented. No ownership requirement.

Get-of-Sire - Four animals from at least two dams by one sire from the above individual classes, both sexes represented. No ownership requirement.

12. No exhibitor shall be permitted to show more than one produce or embryo - produce of dam, per dam.
13. Cows that are exhibited with calves at side must be in a lactating stage. Calves must be shown and exhibited with their dams and said calves must not exceed 240 days of age on day of judging. The judge will be made aware the ring steward for those cows whose calves are ineligible to show by this rule.
14. Cattle will not be allowed to show if their switches have been balled or glitter applied to their skin.
15. In the get-of-sire and produce-of-dam classes, breeders will not be allowed to show cattle of mixed color. They will be entered as to the color division they are assigned by the Color Committee for the show. If so, the following procedure will apply. All grey cattle and solid black cattle will show grey. Red, black and white speckled or red and white speckled cattle will show red. Cattle with questionable colored pigmentation may be entered in the color division the breeder selects, however, said cattle are subject to inspection by a three member ABBA committee. If the Color Committee disagrees with the breeder, the pedigree of said animal will then be used to aid in the final determination, but color pigmentation will take preference. In those cases, where questionable colored cattle possess both red and grey breeding, then the committee will make the final determination. The decision of the committee is final.

Once animals have been classified they will remain in that classification unless they were young at time of classification and it is apparent that they have changed their color.

In the get-of-sire and produce-of-dam classes, breeders will be allowed to show cattle of varying color. They will be entered as to the color division of the sire in case of get-of-sire and dam in case of produce-of-dam. In other words, if a get is mixed red and grey and the sire was red; then the get will be entered in the red division show.

At split shows where the color committee is not present, a staff member with (2) ABBA directors will clarify questionable colored cattle for that particular show. The final classification will be done by the Color Committee. {Revised 08/99}

16. The owner of record of any registered animal entered in an ABBA approved shows and/or his/her agent, exhibitor, fitter, handler and/or representative releases ABBA and its representatives from any and all liability that seller/owner might claim as a result of injury of any kind sustained before, during, or after handling cattle for any ABBA board approved activity.
17. For shows to remain approved, point shows by ABBA, they must maintain a 20 head average for the previous two years.
18. The official ABBA rules and procedures governing showing and exhibiting of registered Brahman cattle supersede any rules printed in any show catalog.
19. In an attempt to insure that all animals receive an equal evaluation at the National and International Shows, classes with more than 30 entries may at the discretion of the Show Management and/or ABBA Officials be split by age as evenly as possible.

Any animal that exceeds the weight & measurement requirements at the International Brahman Show, National Brahman Show or any other designated show where weights & measurements are taken will be ineligible to show at any future ABBA approved shows until they reach the Junior Division. HEREFORD REQUIREMENTS

1. All Hereford entries must be duly recorded with the American Hereford Association. Any animal with a pending registration or without a legible tattoo will not be eligible for show competition. All entries are subject to provisions and rules for showing as set forth by the American Hereford Association Board of Directors, and are subject to supervision of the Show and Sale Committee representing the AHA.
2. Expected Progeny Difference (EPD) values will be provided to the judge and audience for all animals shown. Animals without EPD data are eligible to show, but will have N/A (not available) in place of missing EPD data.
3. The original registration certificate (or photocopy) for each entry must be available for presentation to the Superintendent of the Show at any time during the show.
4. An animal that is scurred (scurs are small, rudimentary horns that are loosely attached to the head, which are considered to be expressed only in animals that are genetically heterozygous for the polled gene) will show in the polled division of Hereford Shows. Once an animal is confirmed to be scurred by an AHA field representative, then this designation will be placed on the animal's registration papers. Once this determination has been made and reported to the AHA office, then the owner(s) may remove the scurs. Animals with scurs removed will show in the polled division of the Hereford Shows. Once an animal is confirmed polled or scurred they will retain this designation forever.
5. Premier Breeder and Premier Exhibitor are awarded with the following point system: 1ST place = 5 points, 2ND place = 4 points, 3RD place = 3 points, 4TH place = 2 points and 5TH = 1 point. 11. Safety
 - a. The purpose for the Pre-Junior steer classes is to offer the opportunity to young cattlemen and women to participate in cow shows despite their lack of age required to show in a Junior Show. In many cases, these young people have spent HOURS at the barn with their parents and siblings working "show calves". To go to a show and not be allowed to participate can be boring and tiresome for those with less than developed attention spans. Although the rules and regulations have been set, Safety is the most important factor in this event. We want these young agriculturalist to enjoy their showing days, from the beginning on up, so please, make sure the children and the animals are prepared to participate. Animals can be unpredictable, but the more time the exhibitor spends with the animal prior to the show, the better you can expect it to cooperate when the surroundings change.
12. Animal Health
 - a. Animals entered must be within the guidelines of the Livestock Health Requirements. Make sure your animal has all the required paper work complete in order to enter and participate in the show.
 - b. Brand inspections are required from areas within Brand Inspection Areas. Please check carefully the guidelines for each show, as they are similar but somewhat different.

 - b. Exhibitors must be current active members of the Miniature Hereford Breeders Association. Siblings may share family membership.
 - c. Steers must be registered in the AHA and meet height restrictions in order to participate.
 - d. Steers that are over the height restriction will show in an OCC (out of class) and will not be eligible for prizes or premiums.
 - e. Steers will be allowed ½ inch over the hip-height chart accepted for use by the MHBA until the animal reaches fourteen months of age. At that point, they must be within the chart range.
14. Rules and Regulations: General rules and regulations of individual shows apply to this division as well as those listed.
15. Ownership
 - a. Ownership of prospect steers must be established by September 1, 2014.
 - b. Ownership of Market steers must be established by May 1, 2014.
 - c. Animals must be in the name of the exhibitor or their parent/guardian.
16. Possession, Care and Feeding
 - a. Animals entered must be in the possession of the exhibitor no later than the above dates. The exhibitor is responsible for the general custody, care and feeding of their animal when possible, or to help when it is not possible to care for the animal unassisted. Family members and fellow participants may help with these tasks.
 - b. All animals in this division MUST be completely broke to lead for the safety of the exhibitor and others in the show ring. Animals not deemed fit will be removed from the show ring and disqualified from the competition.
17. Fitting of Animal
 - a. All animals will be fitted and be presented in proper condition for a beef show. Exhibitors are encouraged to help in any way that is safe and possible for them to do so, but not endanger either themselves, their animals, or others in the process.
 - b. Alteration of conformation and structure by prohibited substance or unethical fitting is prohibited. Any violation of this rule will result in immediate disqualification without recourse.
 - c. The injection, use or administration of any drug that is prohibited by Federal, State or Local Law or any drug that is used in a manner prohibited by Federal, State or Local Law will result in immediate disqualification without recourse.
 - d. Any physical or physiological attempt to alter the natural musculature or weight by use of injections or ingested material not conducive to the continued health or marketability of beef carcasses or for deception will result in immediate disqualification without recourse.
 - e. Every participant in consideration of their entry being accepted by the show, specifically represents that no animal entered is misrepresented in any way except trimming of feet and blocking of hair.
18. Official weight and height
 - a. The weight recorded at the time of check-in will be the official weight and height of the animal.
19. Check weight and height
 - a. The MHBA reserves the right, at its discretion, to check the weight and height of any animal.

20. Showing of animals

- a. Participants in this division are required to show their animal.
- b. Show harness
- c. All Junior exhibitors will be required to wear a show number harness for each animal shown in a class. These harnesses hold the number in place in plain sight.
- d. Showmanship
- e. Any exhibitor who shows unassisted may compete in this class.
- f. Animal must be owned and entered by participant to show in this class.

9. All animals must be exhibited with the hair brushed down on the entire body, legs, and tail with no foreign objects attached to the animal in a manner as to alter the animal's conformation or change its appearance.

*Exhibitors failing to abide by this rule will not be allowed to show. Specifically, all hair must be brushed down slick; head clipped smooth; underline clipped blending sides; udder and teats clipped with no long hair to emphasize udder; ears clipped as to environmental and local standards; neck and brisket clipped; body clip using common sense as to season; leg hair clipped (no steer or Brahman clips) and do not leave long from hock or knee to hoof; tailhead clipped; pull switch or brush out (no ball, etc.); trim tail (no shear except back side). Fitting handbook should be studied.

10. Each animal exhibited must be exhibited with the correct age and shown in the class corresponding with their correct age. SGBI reserves the right to tooth animals without prior notice to the breeders in order to verify age of cattle.
11. Entries in each class will be placed 1, 2, 3, etc. Animals are to be presented in descending order according to age.
12. Polled classes will be entered at the same time as class entries are required by each show. Animals will be lined up according to age for the judge.
13. To be eligible to show in Best of Polled, animals must be slick polled with no scurs, no scars, no dehorning and with no evidence of horny tissue.
14. There must be at least five (5) exhibitors and twenty-five (25) head of cattle, or a minimum of fifty (50) head of cattle, to constitute a recognized Santa Gertrudis Show.
15. In all shows in which fifty (50) head or less are entered, all early and late classes may be combined at the discretion of the show officials.
16. Classes with over thirty (30) entries should be divided into sections and section winners return for final placing.
17. The judge must be an SGBI approved judge.
18. Dress for exhibitors participating in SGBI sanctioned Open and Junior shows shall be of neat and clean clothing of collared shirts with sleeves, belts, no midribs showing and appropriate footwear – no tennis shoes. Exhibitors may wear hats or go bareheaded – no caps.
19. Juniors showing in open shows are allowed and encouraged. Entry must be shown by the owner or immediate family member (sister, brother, mother, father, grandparents, legal guardian). No animal may be fitted or shown by any open exhibitor at any time during the junior's ownership period. An exception is transportation feed and care to a show may be allowed. Refer to junior ownership rules.
20. Each animal shall be presented in the show ring in its natural conformation and structure without alteration or modification. Alteration or modification shall be defined to include any surgical, chemical, electrical, pharmaceutical or other appearance change, save only branding, tattooing, foot trimming or dehorning. Additionally, no pumping or filling of an animal with a liquid diuretic or any other substance is allowed. ALL animals and exhibitors found to be in violation of this rule will be banned for life from showing at SGBI approved shows.
21. If entries are not properly fitted and good herdsmanship followed, the owner may be asked to not display their cattle until adhering to the proper procedures as outlined in our herdsmanship paper.
22. Every exhibitor, in consideration of his/her entry being accepted, agrees to submit any animal so entered by him/her to inspection and agrees to have such animal submitted to any tests as may be designated and requested by the Shows and Exhibits Committee, or the authorized representatives of the relevant show or fair, and agrees that the conclusions reached by the committee/representative as to whether such animal is unethically fitted or over age, shall be final, without recourse, against SGBI and designated personnel. Any false representation, interference or unprofessional conduct on the part of any exhibitor will be dealt with by the Shows and Exhibits Committee according to the equities of the case.
23. Any person who furnished the birthday of an animal to SGBI either on the IPRA or some other document (whereby that birthday information is transferred to the registration certificate) and that animal is exhibited in an SGBI approved show with an incorrect age and the age determined by the SGBI designated veterinarian exceeds the age listed on the registration certificate by more than thirty (30) days, the person furnishing the birthday above and such person furnishing said information to SGBI for inclusion on the registration certificate shall be barred from showing in an SGBI approved show for a period of six (6) months for the first offense, one (1) year for the second offense and for life for the third offense. However, the animal, if transferred to another owner, may be placed in the correct class and be shown again.
24. For and in consideration of the opportunity to participate in any SGBI approved show, each exhibitor hereby releases SGBI, its officers, directors and representatives from negligence, any and all claims, suits and judgments, either past, present or future, arising from or connected with the administration or use of such test or examination and the resulting decision therefrom.

**THE PUREBRED DAIRY CATTLE ASSOCIATION
SHOW RING CODE OF ETHICS**

(Adopted by PDCA in March 1970; Revised February 1993).

The showing of registered dairy cattle is an important part of the promotion, merchandising and breeding program of many breeders. Additionally, it is an important part of the program of the various dairy breed associations to stimulate and sustain interest in breeding registered dairy cattle. This relates to both spectators and exhibitors. In this connection The Purebred Dairy Cattle Association believes that it is in the best interest of the breeders of registered dairy cattle to maintain a reputation of integrity and to present a wholesome and progressive image of their cattle in the show ring. It recognizes that there are certain practices in the proper care and management of dairy cattle which are necessary in the course of moving dairy cattle to and between shows that are advisable to keep them in a sound, healthy condition so that they might be presented in the show ring in a natural, normal appearance and condition. Conversely, it recognizes certain practices in the cataloging, handling, and presentation of cattle in the show ring which are unacceptable.

The following practices or procedures are considered unacceptable and defined as being fraudulent and/or unethical in the showing of registered dairy cattle:

- (1) Misrepresenting the age and or milking status of the animal for the class in which it is shown.
- (2) Treating the animal, particularly the udder, internally or externally, with an irritant or counter irritant or other substance to artificially improve the conformation.
- (3) Surgery or insertion of foreign material under the skin, performed to exchange the natural contour or appearance of the animal's body, though not to preclude practices required or involved in normal management.
- (4) Criticizing or interfering with the judge, show management or other exhibitors while in the show ring, or other conduct detrimental to the breed or the show.

The following is considered a serious violation and defined as an unethical practice that detracts from the show ring.

- (1) Setting teats or manipulating a teat to alter its normal position such as to unnaturally hold it plumb or to alter the length is unacceptable.

The following practices and procedures are considered to detract from the image of the show ring when carried to excess and will be given slight to serious discrimination in placing animals within class.

- (1) Excessive manipulation of hair.
- (2) Use of artificial hair except for false switches.
- (3) Unsportsmanlike conduct on the part of showmen.
- (4) Improper fitting practices such as over filling and over bagging.

Practices which should be encouraged to enhance the image of the show:

- (1) Establish uniform dress code for exhibitors in the show ring.
- (2) Recognize good herdsman ship and exhibits in the barn.

In keeping with the basic philosophy of the PDCA, ethics are an individual responsibility of the owner of each animal shown.

Violations of these policies are subject to disciplinary provisions of the appropriate dairy breed association and/or show management.

Animals which are administered treatments with a withdrawal or extended elimination time period will be disqualified from competition. Furthermore, the Official State Fair Veterinarian, in agreement with State Fair Management, reserves the right to treat any animal if, in the opinion of the Official State Fair Veterinarian, it is in the best interest of the animal's health and well-being to be treated. If the Official State Fair Veterinarian administers treatment to an animal, and therefore uses any medication that does not meet the appropriate withdrawal and/or elimination time, such animal will be determined ineligible for competition. All treatment costs are the responsibility of the exhibitor.
9. **DISQUALIFICATION/CONDEMNATION OF ANIMAL:** State Fair practices a "zero tolerance" policy on all residue violations. State Fair reserves the right to condemn and/or disqualify any animal, either live or slaughtered, found in violation of the Rules, and the exhibitor will forfeit all auction sale and/or premium money if the animal is disqualified. If an animal(s) is disqualified, the class placing will not change. A disqualified exhibitor may forfeit all rights and privileges to exhibit livestock in the future at the Fair, as well as any and all State Fair scholarship opportunities. Disqualifications due to violations of State Fair Rules as stated in this premium list or the Entry Certification, Release and Indemnity agreement and any consequences will be decided by State Fair Management. These decisions may be appealed to State Fair's Executive Committee from whose decision there can be no further appeal.

The Association does not pay a percentage on premiums offered in championship classes. An animal may only be counted one time toward the total count for premium participation by the Association.
8. **Exhibitors must have the original registration certificate on each animal available for inspection at the show. Electronically stored registration certificates are NOT accepted – only the original certificates issued by the American Angus Association.** Any animal, upon check-in, which does not have a legible permanent identification mark (ear tattoo marks, freeze-branded marks or hot-branded marks) corresponding to the permanent identification mark on the registration certificate is ineligible to show. Once disqualified due to an incorrect or illegible permanent identification mark, animals cannot be re-tattooed and rechecked at the show.
9. Only one person at a time shall lead animals into the show ring.
10. Exhibitors who participate in shows that accept premium monies contributed by the American Angus Association are subject to the Association Rules as found in the Breeder's Reference Guide of the Association. These rules are found in Part 2; Association Rules. The rules relating directly with the exhibition of Angus cattle are Part 2: Association Rules; Rule 800 Series; including Rule 800-810. These rules can be found at www.angus.org.
11. Altering the conformation and/or appearance of an animal for exhibition is prohibited. This includes the covering of white skin, false tail heads (or use of any false hair), with the exception of false tail switches. The use of graphite, powders, hemp or other similar substances used externally are also prohibited. Other prohibited products include those used internally such as steroids, illegal or unlicensed pharmaceuticals or artificial filling. Any animal found to be in violation will be barred from showing.

12. At any show for which the American Angus Association appropriates funds toward the payment of premiums, no exhibitors, individuals assisting exhibitors or member owners at such show shall be allowed to use any coloring agents, on any animal exhibited. The Association may adopt and implement various tests designed to monitor this prohibition, including but not limited to a "white towel" or "white glove" test. No aerosol cans or other pressurized containers will be allowed in designated make up areas.
13. All animals exhibited are subject to DNA marker or blood type tests to verify accuracy of parentage as covered under the Association Rules and for other testing as required by the individual show.
14. Authorized representatives of the Association have the authority to enforce the rules set forth herein as well as in the Association Rules, including the barring of a registered animal from a livestock show at which it is to be shown, if there are reasonable grounds to believe a violation has occurred.

Questions may be: a) general to the industry that produced the product (i.e. Texas' national ranking, economic impact to Texas, general nutritional content, region of production); or b) specific to the individual product that is on display (i.e. cooking method use, growing season, specific nutrition of the cut or variety). Contestants will be allowed 40 seconds at each station before they are asked to advance to the next station.
16. Scoring: Contestants will receive five points for each product that is correctly identified and five points for each question that is correctly answered. However, for points to be awarded on questions pertaining directly to the product displayed, the product must be correctly identified. Points will be awarded for correct answers to questions general to the industry regardless of the product being correctly identified. (Total possible points: 200 per individual, 600 per team).
17. Ties: Five stations will be selected as tie breakers in advance of the contest. Teams with the highest cumulative scores at these five stations will win any ties. If ties still remain, winners will be determined by the toss of a coin.
