SFT Career Connections

As they complete the activities associated with the State Fair of Texas Curriculum, students will find that there are many, many career paths that can lead to the Fair! Below are dozens that we've broken out according to the four main categories – Livestock & Agriculture, Big Tex, Midway & Games, and Fair Food. See if you and the kids can find the connections across the four themes, and discuss with your students how important it is to value – and integrate – multiple subject areas in order to be the BEST in one's chosen field!

Livestock & Agriculture

Architect
Agriculturalist
Author
