GENERAL INFORMATION & RULES

WELCOME: The State Fair of Texas® (State Fair) encourages your participation in this year's Fair. The Fair staff looks forward to hosting you and your exhibits at Fair Park, and we welcome you to Dallas.

FAIR DATES: The 2017 State Fair of Texas (the Fair) will be held at Fair Park, Dallas, September 29 to October 22, unless postponed, shortened or extended by the Board of Directors, which they reserve the right to do if deemed necessary for the general welfare of all concerned.

HOMELAND SECURITY/EMERGENCY EVACUATION OF LIVESTOCK/PROPERTY STATEMENT: During such time as deemed necessary by local, state or federal authorities, the State Fair of Texas, and/or its officials may, temporarily or permanently evacuate Fair Park under the authority of the Homeland Security Act. Incidents such as, but not limited to, extreme weather conditions, bomb threats, acts of war, declarations of war, code red of the Homeland Security System, etc., will be acted upon in accordance and cooperation with local, state and federal authorities. Priority evacuation will be given to human life, then livestock and/or property. (In such cases, exhibitors may turn over the care of their livestock or property to State Fair, or as directed by governmental authorities). Proper animal husbandry practices will be followed within reasonable expectations. At such time the evacuation notice is lifted, exhibitors will be allowed to re-enter Fair Park and claim their livestock or property.

INTERPRETATION OF RULES: State Fair reserves to its Executive Committee the final and absolute right to interpret these General Rules and Regulations, the Youth Livestock Show Special Rules, and/or any applicable special requirements as published in this premium list (collectively, the "Rules") and to reasonably settle and determine all matters, questions and differences in regard thereto, or otherwise arising out of or connected with or incident to the Fair, and the right to amend or add to these rules as its judgment may determine. An exhibitor who violates any of the following rules may forfeit all privileges, fees paid and premiums and be subject to such penalty as the Executive Committee may order. The failure of the State Fair to enforce any of the provisions, rules, rights or remedies of this premium list or to exercise any options or sanctions herein provided will in no way be construed to be a waiver of such provisions, rules, rights, remedies, sanctions or options. Special rules or conditions are published in each department where necessary. If there is a conflict between the special rules or requirements of any department or division and the general rules and regulations, the special rules or requirements shall apply.

LIABILITY STATEMENT: All exhibitors and exhibits shall comply with the Rules of State Fair. State Fair shall not be liable to exhibitor for lost profit or other financial loss to exhibitor of any type or description including any special, indirect, reliance, incidental or consequential damages which may be caused directly or indirectly by the enforcement of such Rules, or for any time delays, inadequacies of services of State Fair or any use of the premises or by any deficiency or defect therein. Additionally, State Fair is not responsible for any loss, injury or damage caused by exhibitor or exhibitor's animal(s) that may arise directly or indirectly from exhibitor's participation at the Fair. Each exhibitor will be solely responsible for any such loss, injury or damage, whether to person or property, and shall indemnify State Fair, the City of Dallas and their officers, directors and employees against all legal proceedings arising there from.

DISCLAIMER OF WARRANTIES: State Fair expressly disclaims any express or implied warranties (including warranty of merchantability), whether the goods or services are provided by State Fair, its vendors or others (such as drug testing). State Fair does not provide special security or guard services for the livestock area and is not responsible for the acts of third parties. Exhibitor (and exhibitor's parent or legal guardian, if exhibitor is a minor) agree and acknowledge that State Fair will disqualify any exhibitor whose animal tests positive for ANY drug even if the exhibitor (and the exhibitor's parents/guardian) are innocent of any wrongdoing and had no role in the administration of the drug shown by the drug test. Even if the source of the drug is unknown, the State Fair shall be entitled to disqualify the exhibitor. Disqualification will result in the forfeiture of all auction proceeds and/or premiums, and the exhibitor may be prohibited from exhibiting livestock in future State Fair shows.

VETERINARIANS/MEDICATIONS: Animal under the care of a licensed veterinarian and/or taking ANY type of medication, including but not limited to steroids, diuretics, anti-inflammatories, tranquilizers and/or pain killers, are ineligible for competition. PRESS INFORMATION: Members of the State Fair Agricultural Publicity Staff will be glad to furnish any information requested by representatives of newspapers, magazines, radio and television stations. Results of judging will be furnished as quickly as reasonably possible. All reasonable cooperation and assistance will be given to all representatives of the working press covering the State Fair. The management reserves the right to return entries and cancel any class in which, in its judgement, the numbers of entries are insufficient to ensure adequate competition. Where there are fewer entries in a class than the number of premiums offered, the judge(s) may, at their discretion, award a prize or prizes of such grade as the animal merits.
- e. **TIME OF JUDGING:** The Livestock Schedule, as published in this premium list, will be followed as closely as possible. However, exhibitors who must use their own feed will be allowed to bring the feed on grounds in limited amounts daily.
- 21. ANIMAL/EXHIBITOR DISQUALIFICATION:** In order to foster fair competition, provide a level playing field and protect the safety of the food chain, the showing of unethically fitted livestock, livestock of ineligible age for exhibition in the class entered, and/or animals being administered unapproved drugs is strictly prohibited. Additionally, any animal that has been administered a drug, even though that drug is FDA approved for its species, is subject to disqualification if that animal tests positive for that drug once it has arrived at State Fair and/or participated in State Fair shows. All animals must remain negative/clear of all drug and chemical residues while on State Fair grounds.
- a. UNETHICAL FITTING:** Unethical fitting means any attempt to alter the natural appearance, conformation, musculature or weight of an animal by any unnatural means. Animals showing any signs of being unethically fitted will be disqualified. Examples of unethical fitting include, but are not limited to the following:

Unapproved means not approved by the FDA and/or the USDA for slaughter animals of a species, including animals that may be destined for human consumption.
- d. APPROVED DRUG USE:** If an animal has been administered a drug that is FDA approved for its species, sufficient time must have passed so that the drug has been completely eliminated from the animals system, and the animal does not test positive for that drug upon arrival at the Fairgrounds. Animals must remain free and clear of all drug and chemical residues while on the Fairgrounds and/or participating in State Fair shows. Please note that elimination time (the time it takes for no drug residue to be found in the system) is generally longer than the labeled withdrawal time for most approved drugs.
- e. ANIMAL INSPECTION:** As condition for participation in the State Fair shows, exhibitor agrees to submit any animal entered by the exhibitor for inspection by any veterinarian or show official appointed by State Fair Management. Exhibitor also agrees to have such animal submitted to any tests requested by State Fair. Exhibitor also agrees that the opinion reached by State Fair or its officials as to whether such animal is unethically fitted or over age shall be final and binding without recourse against State Fair, its officials or any of its appointed veterinarians. Further, State Fair specifically reserves the right to have ultrasound, D.N.A., tissue, blood or urine laboratory analysis made on any animal entered for State Fair competition. The conclusions reached by the veterinarian or laboratory shall be final and binding without recourse against State Fair, its officials or any of its appointed veterinarians. An exhibitor of an animal that is found to be unethically fitted, over age, and/or testing positive for any drug or medication or unapproved substance may forfeit all titles, awards, auction proceeds, premiums, scholarships, as well as rights and privileges to exhibit livestock in the future at the Fair. Exhibitor waives any cause of action which he/she might have for any action taken under these Rules, and releases State Fair and any appointed veterinarian from any and all claims or demands whatsoever in connection with the inspection or testing of any such animal or any ruling or action taken by reason of the conclusion of such veterinarian.

Animals which are administered treatments with a withdrawal or extended elimination time period will be disqualified from competition. Furthermore, the Official State Fair Veterinarian, in agreement with State Fair Management, reserves the right to treat any animal if, in the opinion of the Official State Fair Veterinarian; it is in the best interest of the animal's health and well-being to be treated. If the Official State Fair Veterinarian administers treatment to an animal, and therefore uses any medication that does not meet the appropriate withdrawal and/or elimination time, such animal will be determined ineligible for competition.
- h. TREATMENT COSTS:** All treatment costs are the responsibility of the exhibitor.
- i. DISQUALIFICATION/CONDEMNATION OF ANIMAL:** State Fair practices a "zero tolerance" policy on all residue violations. State Fair reserves the right to condemn and/or disqualify any animal, either live or slaughtered, found in violation of the Rules, and the exhibitor will forfeit all auction sale and/or premium money if the animal is disqualified. If an animal(s) is disqualified, the class placing will not change. A disqualified exhibitor may forfeit all rights and privileges to exhibit livestock in the future at the Fair, as well as any and all State Fair scholarship opportunities. Disqualifications due to violations of State Fair Rules as stated in this premium list or the Entry Certification, Release and Indemnity agreement and any consequences will be decided by State Fair Management. These decisions may be appealed to State Fair's Executive Committee from whose decision there can be no further appeal.

SHOW REQUIREMENTS

American Brahman Breeders Association, 3003 S Loop Ste 520, Houston, TX, 77054, (713) 349-0854

1. Animals must be registered in the American Brahman Breeders Association to be eligible to compete in association sponsored shows. The registration certificate (or photocopy) for each entry must be available for presentation to the superintendent or manager of the show at the time entries are verified prior to judging.
2. The registration number and animal identification number (number branded on animal) of (1) each animal must be entered in an individual class, (2) the sire of each get-of-sire entry and (3) the dam of each produce-of-dam entry must be listed on the entry card of each animal entered.
3. Entries that have not complied with rules one (1) and two (2) will not be eligible to show, receive premium monies or earn points in the association's Register of Renown.
4. Animals to be eligible to be shown in group classes must be entered and shown in individual classes.
5. Entries will be listed numerically according to age (oldest first) in catalogs and judging schedules. Include animal identification number (number brand) as a part of identification. When entering the arena for judging, the handlers will line cattle up numerically in the same order.
6. Judges will be allowed to comment on placings in selected classes when conditions permit.
7. Each animal will be presented in the show ring in its natural conformation and structure without alteration or modification. Alteration or modification shall be defined to include any surgical or circulatory constriction including banding or other appearance change, save only branding, tattooing, foot trimming or dehorning. Injections of foreign substances for cosmetic purposes shall be prohibited. If to the satisfaction of the ABBA's staff, Officers, Executive Committee or Board of Directors; any animal has had its natural conformation and structure altered or been administered steroids, growth hormones or stimulants; then said animal shall be ruled ineligible to compete until such time the show committee and owner/owners have reviewed the case. Any violators, both owner and fitter will be ineligible to exhibit cattle at ABBA approved shows for 5 years.
8. In cases where families, companies, corporations, etc., are operated as a unit under the same management but have cattle also registered in the name of individual partners, said cattle, even though bearing a different ownership brand, are eligible to be shown in competition under the firm name provided they have not been and will not be shown in the name of the individuals.
9. For females being shown in the three oldest classes ****CURRENT YEAR LESS 3 YEARS**** (females calved Sept. 1 - August 31, 2014 for Fall Shows), exhibitor must have a certificate of pregnancy issued by a licensed veterinarian and will be presented to show officials at time of check-in or registration paper check. The show reserves the right to perform pregnancy determination by palpation for females in the above classes at any given ABBA approved show if an official protest has been filed. For Fall Shows only the last class of females is required to have a calf at side. The only exemption from this rule will be cows that have already weaned a calf and a registration certificate of the calf **MUST** be presented to the judge.
10. **All bulls will be shown with a nose ring or nose restraint with lead attached.** For bulls showing in the oldest class, the exhibitor must have a certificate issued by a licensed veterinarian stating the bull has produced viable semen. This certificate must be available for inspection by the judge on request.
11. No exhibitor shall be permitted to show more than one produce or embryo - produce of dam, per dam.
12. Cows that are exhibited with calves at side must be in a lactating stage. Calves must be shown and exhibited with their dams and said calves must not exceed 240 days of age on day of judging. The judge will be made aware the ring steward for those cows whose calves are ineligible to show by this rule.
13. Cattle will not be allowed to show if their switches have been balled or glitter applied to their skin.
14. In the get-of-sire and produce-of-dam classes, breeders will not be allowed to show cattle of mixed color. They will be entered as to the color division they are assigned by the Color Committee for the show. If so, the following procedure will apply. All grey cattle and solid black cattle will show grey. Red, black and white speckled or red and white

speckled cattle will show red. Cattle with questionable colored pigmentation may be entered in the color division the breeder selects, however, said cattle are subject to inspection by a three member ABBA committee. If the Color Committee disagrees with the breeder, the pedigree of said animal will then be used to aid in the final determination, but color pigmentation will take preference. In those cases, where questionable colored cattle possess both red and grey breeding, then the committee will make the final determination. The decision of the committee is final. Once animals have been classified they will remain in that classification unless they were young at time of classification and it is apparent that they have changed their color. In the get-of-sire and produce-of-dam classes, breeders will be allowed to show cattle of varying color. They will be entered as to the color division of the sire in case of get-of-sire and dam in case of produce-of-dam. In other words, if a get is mixed red and grey and the sire was red; then the get will be entered in the red division show. At split shows where the color committee is not present, a staff member with (2) ABBA directors will clarify questionable colored cattle for that particular show. The final classification will be done by the Color Committee. {Revised 08/99}

15. The owner of record of any registered animal entered in an ABBA approved shows and/or his/her agent, exhibitor, fitter, handler and/or representative releases ABBA and its representatives from any and all liability that seller/owner might claim as a result of injury of any kind sustained before, during, or after handling cattle for any ABBA board approved activity.
16. For shows to remain approved ABBA point shows, show must maintain 20 head average for previous 2 years.
17. The official ABBA rules and procedures governing showing and exhibiting of registered Brahman cattle supersede any rules printed in any show catalog.
18. In an attempt to insure that all animals receive an equal evaluation at the National and International Shows, classes with more than 30 entries may at the discretion of the Show Management and/or ABBA Officials be split by age as evenly as possible.
19. Any animal that exceeds the weight & measurement requirements at the International Brahman Show, National Brahman Show or any other designated show where weights & measurements are taken will be ineligible to show at any future ABBA approved shows until they reach the Junior Division. Any animal that exceeds the parameters and is shown at an ABBA approved show before reaching the Junior Division will be ineligible to show their remaining career. - All Hereford entries must be duly recorded with the American Hereford Association. Any animal with a pending registration or without a legible tattoo will not be eligible for show competition. All entries are subject to provisions and rules for showing as set forth by the American Hereford Association Board of Directors, and are subject to supervision of the Show and Sale Committee representing the AHA.
- Expected Progeny Difference (EPD) values will be provided to the judge and audience for all animals shown. Animals without EPD data are eligible to show, but will have N/A (not available) in place of missing EPD data.
- The original registration certificate (or photocopy) for each entry must be available for presentation to the Superintendent of the Show at any time during the show.
- An animal that is scurred (scurs are small, rudimentary horns that are loosely attached to the head, which are considered to be expressed only in animals that are genetically heterozygous for the polled gene) will show in the polled division of Hereford Shows. 9. SHOW HARNESS

- a. All Pre-Junior exhibitors will be required to wear a show number harness for each animal shown in a class to hold the number in plain sight.

- a. Any exhibitor who shows unassisted may compete in this class.
- b. Animal must be owned and entered by participant to show in this class.
- c. All animals' class and OCC may participate in this competition.

11. SAFETY

- a. The purpose for the Pre-Junior steer classes is to offer the opportunity to young cattlemen and women to participate in cow shows despite their lack of age required to show in a Junior Show. In many cases, these

young people have spent HOURS at the barn with their parents and siblings working “show calves”. To go to a show and not be allowed to participate can be boring and tiresome for those with less than developed attention spans. Although the rules and regulations have been set, Safety is the most important factor in this event. We want these young agriculturalist to enjoy their showing days, from the beginning on up, so please, make sure the children and the animals are prepared to participate. Animals can be unpredictable, but the more time the exhibitor spends with the animal prior to the show, the better you can expect it to cooperate when the surroundings change.

However, the animal, if transferred to another owner, may be placed in the correct class and be shown again.
22. For and in consideration of the opportunity to participate in any SGBI approved show, each exhibitor hereby releases SGBI, its officers, directors and representatives from negligence, any and all claims, suits and judgments, either past, present or future, arising from or connected with the administration or use of such test or examination and the resulting decision therefrom.

THE PUREBRED DAIRY CATTLE ASSOCIATION SHOW RING CODE OF ETHICS

Adopted April 3, 2004

The showing of registered dairy cattle stimulates and sustains interest in the breeding of registered dairy cattle. It is also an important part of the promotion, merchandising and breeding program of many breeders. For these reasons, the Purebred Dairy Cattle Association (PDCA) believes that it is in the best interest of all breeders of registered dairy cattle to maintain a reputation of integrity in dairy cattle shows and to present a wholesome and progressive image of dairy cattle in the show ring.

PDCA endorses this Show Ring Code of Ethics for all dairy breed shows and pledges its full cooperative support for its enforcement to show management, show judges, and the national breed associations.

The application of this Code of Ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this Code of Ethics. Dairy cattle exhibitors shall, at all times, deport themselves with honesty and good sportsmanship.

It is recognized that there are certain practices in the proper care and management of dairy cattle that are necessary in the course of moving dairy cattle to and between shows that are advisable to keep them in a sound, healthy state so they might be presented in the show ring in a natural, normal condition. At all times, exhibition livestock shall be treated in a humane manner and in accordance with dairy quality assurance practices so as to protect the health, safety and welfare of the livestock and the consuming public. No person shall present for exhibition or exhibit an animal which he or she knows, or has reason to suspect, is affected with or has been exposed to a dangerously contagious or infectious disease, or illegal or non-approved use of drugs, medication and/or prohibited substance, or residue.

The position of the Purebred Dairy Cattle Association is that all animals presented for exhibition shall be in their natural conformation and structure, free of any alteration or modification by injection or internal or external administration of any substance or by any involvement in unethical fitting.

Grooming and Preparation

Dairy cattle exhibitions are conducted under standards for evaluating conformation established by the PDCA *Unified Score Card* (2009), with specific breed characteristics taken into consideration by the show judge. In this connection, animals will be groomed and prepared for the judge's evaluation in order to display the animal's natural contour, conformation, performance and mobility. Specifically:

1. External applications of cosmetics that affect only appearance may be used, including by way of example hoof polishes and false switches.
2. The maximum allowable length of naturally growing hair anywhere on the topline is not to exceed 1". Exhibitors will be required to comply with this rule before the animal is allowed to enter the ring.
3. Addition of foreign objects, including but not limited to hair or hair substitutes, cloth or fiber, to change the natural contour or appearance of the animal's body is prohibited.
4. Externally sealing the teat end with a preparation that does not harm the animal's skin is permissible. Natural teat placement will be given preference over artificially positioned teats.

Violations: False, Deceptive or Unacceptable Practices

These practices are violations of the Code of Ethics and will be reported to show management and may be reported to the respective national breed associations:

1. Misrepresenting the age and/or milking status of the animal for the class in which it is shown.
2. Treating the animal, particularly the udder, internally or externally:
 - a. with an irritant or counter-irritant,
 - b. using a device to artificially create or enhance the udder crease,
 - c. using other substances as detected by testing that causes changes in the udder to artificially improve the conformation.
 - d. plugging of teat canal with foreign substances.
3. Surgical or unethical insertion of any matter under the skin or into body cavities, performed to change the natural contour or appearance of the animal's body (e.g., administration of fluid via a stomach tube or other similar apparatus to fill the rumen), though not to preclude practices required or involved in normal management.
4. Criticizing or interfering with the judge, show management or other exhibitors while in the show ring or other conduct detrimental to the breed or the show.
5. Challenging, threatening or interfering with an ethics committee appointed by show management to monitor the animals on exhibit on the show grounds.

Exhibitor Responsibility

The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter and/or absolutely responsible person (hereinafter referred to as "Exhibitor") for show management to obtain any specimens of urine, saliva, blood, milk, or other substances from the animal to be used in testing. Materials may also be collected by ultrasound and photographic methods and by direct examination of animal.

The act of entering an animal is the giving of consent by the owner, exhibitor, fitter and/or absolutely responsible person (the "Exhibitor") to have disciplinary action for violation of this Show Ring Code of Ethics taken by show management, the state in which the show occurs, and/or the national dairy breed association without recourse.

Show Ethics Committee

Each show should have an Ethics Committee. The make-up of this committee should include official breed representatives, representative(s) of show management (e.g., dairy cattle show superintendent, General Manager), the official show veterinarian, and Extension representative.

The Ethics Committee will be responsible for monitoring violations of the Show Ring Code of Ethics. The Ethics Committee will investigate the report of any violation and determine the accuracy of the allegation. The Ethics Committee will have the authority to inspect animals and related material to determine if violations have occurred.

Violations: Reporting and Investigation

Complaints of alleged violations can be reported to the breed superintendent, the show superintendent, show management, and/or the Ethics Committee.

Before An Animal is Shown

If the Ethics Committee suspects that a violation of the Show Ring Code of Ethics will occur if the animal is shown, and that violation is reasonably well established before the animal is shown, the Ethics Committee will submit a report to show management.

Show management will discuss the violation with the Exhibitor:

1. If, at the Exhibitor's discretion, the animal in question is not shown, no violation will have occurred.
2. If the Exhibitor wishes to challenge that a violation occurred, he/she/they will have opportunity to appeal to the Ethics Committee. If its decision is not changed, the Exhibitor will be denied opportunity to exhibit the animal in question.

During and After an Animal is shown

All animals are subject to examination during judging. The judge and Ethics Committee are instructed to examine the top five (5) animals in each class closely for violations of the Show Ring Code of Ethics. When a violation may have occurred, a milkout may be called for. This call may be by breed association rule, or by request of an authorized representative of the national breed association, the judge, the Ethics Committee, or show management.

If an animal is exhibited and a violation of the Show Ring Code of Ethics is subsequently suspected, investigated, and determined to have occurred, the violation will be reported to the Ethics Committee and show management for action. The Exhibitor will be notified of the violation and the supporting evidence and invited to defend or explain the allegations.

Violations are subject to the disciplinary provisions of show management, the state in which the show occurs, and the national dairy breed association. Sanctions may include any one, or combination of the following:

- a. forfeiture or return of awards, prizes, premiums or proceeds;

- b. written letter of reprimand to the owner, exhibitor, fitter and/or absolutely responsible person (the "Exhibitor");
- c. disqualification of the exhibition livestock from an exhibition;
- d. disqualification of the Exhibitor from the show;
- e. publication of offense.

Disqualification may include any or all shows and classes and may be for any number of years.

History: Adopted by PDCA in March 1969, revised March 1971, February 1977, February 1981, February 1986, February 1988,

Notes, books, and reference materials are not permitted in the testing area. All materials will be provided, including a Sire Summary, quiz questions, answer sheet, and pencils.

Conferring with other contestants, use of cell phones, or any other form of cheating will be grounds for disqualification of contestants.

Ties will be broken according to pre-designated tie breaking questions.

Primary resources for questions used on the quiz will be derived from the Texas 4-H Beef Bowl Quiz and Texas 4-H Managing Beef Cattle for Show. Both of these documents are located on the junior section of <http://www.texasredangus.org>

Public Speaking

The junior age division will be doing a prepared speech, while Intermediate and Senior age divisions will participate in extemporaneous speaking.

Contestant speaking order will be selected in a random drawing. Contestants are free to choose their subject matter. However, speech topics should pertain to the Red Angus breed, or the beef industry.

Contestants should present prepared speeches composed of original material. Contestants MAY NOT repeat a speech previously used in this contest. If sources of information are used in speech preparation, the source should be cited. In speeches that address technical or scientific matter, resource information should be given. The speaker must give credit when he/she quotes directly the words or writings of another individual.

Extemporaneous contestants will be given 30 minutes to prepare a speech on one of three randomly selected Red Angus and beef topics. Materials will be provided on the topics to develop speeches.

Speeches will be 3 to 5 minutes in length. Time elapsed will be posted during the speech so contestants are aware of timing. Speakers, who finish before 3 minutes have elapsed, or after 5 minutes have passed, will be penalized 1 point for each second over/under. Following the speech, time is allowed to judges to ask questions.

Following each speech, the panel of judges will be allowed to ask relevant questions to participants in ALL DIVISIONS.

Contestants are permitted to use notes, but excessive reference to note cards may result in point deductions by the judge.

No props, visual aids, music, etc. will be permitted.

At the conclusion of each speaker, judges will total scores for that speaker. The scores shall then be averaged and a ranking of contestants determined at the conclusion of the contest.

Skill-A-Thon

Contest may include a visual identification via Power Point, identification of the actual equipment, or a combination of the two,

Contest may include but is not limited to: identification, practical usage, beef industry problem solving, and practical application of ARA materials.

Contestants may not bring notes, books, or reference materials into the contest area.

While the contest is in progress, there shall be no conferring between contestants, use of cell phones, use of notes, or any other form of cheating. Any violation will be grounds for disqualification from the contest.

Ties will be broken by clearly marked tie-breaker questions. If a tie still remains, the tie will be broken according to placing on the Cattlemen's Quiz.

Sales Talk

The Sales talk uses a live setting complete with animal or a photo (no larger than 8x10) and potential buyers. The purpose of this contest is to evaluate the effectiveness of the presentation and the contestant's ability to merchandise cattle.

Contestants may use any entry or photo (no larger than 8x10) of a Red Angus animal as the subject of the Sales Talk. Contestants may use a heifer/cow other than their own. The contestant may hold or tie the heifer/cow, or have another contestant hold the heifer/cow during the talk. The heifer/cow is not to be fitted.

Before the talk, contestants will be required to provide judges with a registration certificate for the animal being "sold". The judges will use the registration certificate to evaluate the accuracy of pedigree and performance information provided by the contestant and to also ask questions. The certificate will be returned to the contestant at the end of the talk.

Contestants will be judged on their knowledge of the animal they are selling (25%), ability to relate important information about the heifer/cow (organization and style-25%), poise and delivery (25%), and overall effectiveness in convincing the judge to buy the animal (25%).

A contestant's score will be reduced 10% if additional materials are presented to the judges other than those listed in the above rules.

Sales Talk will be 5-7 minutes in length. Time elapsed will be indicated during the contest so that contestants are aware of time constraints.
