DRAW 

BIG TEX ON THE BEACH

It's no secret that summers in Texas can get very hot. What better way to cool off than take a road trip down to the Texas Gulf Coast and enjoy the sand and water? Draw a picture of what you think Big Tex would be doing at the beach.

**DID YOU
KNOW?** ☆

The Texas Gulf Coast stretches over 350 miles. Along this shoreline are cities and beaches where you can fish, go swimming with the dolphins, build

sandcastles, work on your sun tan, and practice your surfing or boogie boarding.
