

THE BIG TEX LITTLE LONESTARS CLUB

Color Big Tex. Then cut out the shapes along the dotted line and assemble.

DID YOU KNOW?

Big Tex's shirt is about 11x bigger than the average man's shirt size. It's so big that it takes a team of Dickies sewing experts two weeks to make Big Tex's shirt. It has to be

durable enough to withstand a month out in the elements, so Dickies makes it out of awning material with venting slits in the material so the wind can blow through it.
